Wednesday Challenge Form

Group Members: Half of the class (Joey's Group)

Problem Statement: Have a marble roll down a slide made of pvc pipes that were cut lengthwise. Each person has to have held a pvc pipe, but there are less pipes than people in the group. The marble has to fall into a box that can not be moved.

Approach: We used only 3 out of 8 pipes for our idea, which was basically to play leap frog with the pipes. Keilah was the one to transport the pipes from 1 person to the next.

Solution: We lost because of reasons and stuff. Some people weren't listening and some even ragequit.

Lessons Learned: Teamwork is key.
